CAREER OBJECTIVE :-

"B.Tech Computer Science & Engineering student with hands-on experience in full-stack web development and IoT projects. Skilled in React.js, TypeScript, Firebase, Python, and SQL, with experience building portfolio management and library management applications. Seeking a software development internship to apply programming and problem-solving skills while contributing to real-world projects."

INTERNSHIP :-

1. Def-Space Summer Internship Programme 2026

Bharat Space Education Research Centre (BSERC)

19 June 2026 – 9 August 2026

- Successfully completed a 6+ week Def-Space internship programme.
- Gained exposure to defence and space technologies and their applications.
- Developed research, problem-solving, and teamwork skills through internship activities.
- Enhanced understanding of responsible innovation and emerging technologies.

2. Internet of Things (IoT) Intern

Intern Alpha

15 January 2026 – 28 February 2026

- Successfully completed an internship focused on Internet of Things (IoT) technologies.
- Gained hands-on exposure to IoT concepts, sensors, and microcontrollers.
- Developed an understanding of designing and implementing IoT-based solutions.
- Strengthened technical, problem-solving, and teamwork skills through practical tasks and projects.

PROJECTS :-

1. NR Wealth Desk – Portfolio Management System

Tech Stack: React.js, TypeScript, Tailwind CSS, Firebase, Go (Gin), REST API

Developed a full-stack portfolio management web application for tracking investments. Implemented secure user authentication using Firebase, integrated CSV import and live stock price updates, and built an interactive dashboard to display portfolio value, profit/loss, and investment analytics.

2. Smart Library Management System

Tech Stack: React.js, JavaScript, HTML, CSS, Firebase, SQL/MySQL

Developed a smart library management system for managing books, users, and library records. Implemented book search, issue/return tracking, and user management features, with an easy-to-use interface for efficient library operations.

3. Smart LED Control using ESP8266 (IoT Project)

Tech Stack: ESP8266 (NodeMCU), Arduino IDE, Blynk IoT, C++

Developed an IoT-based smart LED control system that enables users to control an LED remotely using Wi-Fi through the Blynk mobile application. Configured the ESP8266 microcontroller for real-time communication and implemented wireless device control using the Blynk cloud platform.

SKILLS:-

Technical Skills

Programming Languages: C, C++, Python, JavaScript, TypeScript, Go(Basic)

Web Technologies: HTML, CSS, React.js, Tailwind CSS

Backend & Database: Firebase, REST API, SQL/MySQL

Tools: Git, GitHub, Arduino IDE

Concepts: DBMS, IoT, Problem Solving

Soft Skills

- Problem Solving ● Communication ● Teamwork
- Quick Learner ● Adaptability ● Time Management
- Critical Thinking

EDUCATION:-

B.Tech in Computer Science & Engineering

School of Engineering & Technology (SOET), MGM University, Chhatrapati Sambhajnagar
2023 – 2027 (Pursuing)

HSC (12th)

Samarth Arts and Science Junior College, Bazar Swangi
Maharashtra State Board
2022

SSC (10th)

Zilla Parishad High School, Chikhalthan Tq Kannad Dis Chh. Sambhajnager
Maharashtra State Board

LINGUISTIC ABILITIES :-

LANGUAGE	READ	WRITE	SPEAK
ENGLISH	Excellent	Excellent	Excellent
HINDI	Excellent	Excellent	Excellent
MARATI	Excellent	Excellent	Excellent
